WORK EXPERIENCE

Internt

codelandcs

odelandcs is a leading tech company dedicated to providing top-notch courses and personalized learning experiences in various tech-related fields

Sep 2024 - Jul 2025 | enugu

Kudia Bank – RESTful Banking API /Tasks

- Built a secure banking API with TypeScript, Node.js, Express, and PostgreSQL, featuring account management, transactions, and balance tracking. Implemented JWT authentication, bcryptjs encryption, Yup validation, and automated email alerts via SendGrid/Nodemailer.

PROJECTS

digitpay.finance

FrontEnd Developer

Built and maintained the user interface for a fintech platform that enables secure crypto-to-fiat transactions, digital wallets, and real-time payments. Focused on delivering a clean, responsive, and user-friendly experience for financial operations, ensuring accessibility, performance, and seamless interaction across devices.

Feb 2024 - Aug 2025

Tasks / Achievements

- Collaborated with backend developers to align UI behavior with business logic and security requirements
- Optimized frontend performance and component reusability for scalability

generalmarket.ng

Developer

Built a full-stack marketplace web application with React and Node.js, featuring dynamic category navigation, product listings, admin product management, Cloudinary image handling, and MongoDB-based backend APIs, deployed on Render.
